2017

About Us

Our mission as Elist Engineering is; the supply and transmission of energy, design and implementation of lighting, communication, networking, automation, audiovisual, (CCTV) closed circuit camera systems. By fulfilling these responsibilities within our principle for perfectionism, our fundamental values are; efficiency, sustainability, occupational health and safety, conscience towards nature. As company our principle is to maintain human health in the highest degree of protection; for infrastructure solutions, as well as for selection of products for technologies directly in contact with human life. As today most of the preferred methods for energy needs have a negative impact on nature, we prefer to use energy saving systems to minimize these impacts. Therefore we support facilities who help to extend environmentally friendly energy resources.

Our principles and values

Elist Engeneering has fulfilled designs (projects), contractings and imlemenations of medium voltage, high current, lighting, low current, telecommunications, automation systems in many qualified buildings. We are a solution oriented company with an experienced and dynamic team who aims to make a difference and create unique projects.

Through our experience, we provide the simplest and most natural way to transform the needs of energy in daily life for high-tech buildings. Construction of the projects according to local and international standards designed by our own designer team, are implemented by application and installation teams within our company. Our team improves every day based on our priciple of sustainability and meets the needs of customers with best quality and most accurate solutions.

Quality, Environment, Occupational Health and Safety Policy

- Enlighten our customers about our products and services
- Deliver customers high quality products and designs in time in the most cost efficient way in line with customer orders and standards
- Identifying environmental and occupational health and safety hazards in compliance with law and regulations
- Making necessary risk analysis to prevent threats at their resources
- Constantly minimizing threats towards environment, life security and property by improving their management system
- The necessary work environment to ensure compliance with requirements of products and services within the construction site is; working in regard of occupational health and safety, taking environmental protection measures in accordance with laws and reference standards.
- Improving team spirit and collaboration among employees by creating an environment of mutual trust, understanding and communication
- Working with suppliers who favor quality and customer satisfaction.
- Develop mutually beneficial relationships towards common goals with material and workforce suppliers for continuous improvement of effectiveness and efficiency in the production process,
- Continuously improving ourselves to determine continuous improvement at every point as our basic philosophy by complying with quality management system requirements and technological innovations
- Quality awareness and customer demands are the company's fundamental references for evaluation and assesment of all organizational levels.
- Quality objectives are key elements in performance evaluation of employees

Our Business Area

- Hotel
- Malls
- Residences
- Smart Home Solutions
- Plaza&Office Buildings
- Factories & Industrial Facilities
- Congress & Culture Centers
- Education, Health & Sosyal Service Buildings
- Restaurant, Cafe & Entertainment Centers
- Banks
- Telecommunication Systems
- Renewable Energy Resources

Design and Application Solutions

- Medium Voltage Network Systems
- Transformer Installation
- Medium Voltage Switchgear
- Cogeneration, Trigeneration Systems
- Diesel Generators
- SCADA Power Control Systems
- Indoor & Outdoor İç Lighting
- Busbar Systems
- Electrical Panels and Power Distribution Systems
- Grounding and Lightning Protection Systems
- Lighting Control Systems
- Network, Data, Fiberoptic Systems
- IP, Telecommunication Systems
- Fire Detection and Controlling Systems
- General Audio and Emergency Announcement Systems
- CCTV Closed Circuit TV Systems
- Access Control Systems
- IPTV, Interaktif TV, SMATV Systems
- Car Counting and Parking Control Systems
- Audiovisual Systems
- Building Management Systems
- Integrated Intelligent Building Systems

Ramada Hotel / İzmit 2012

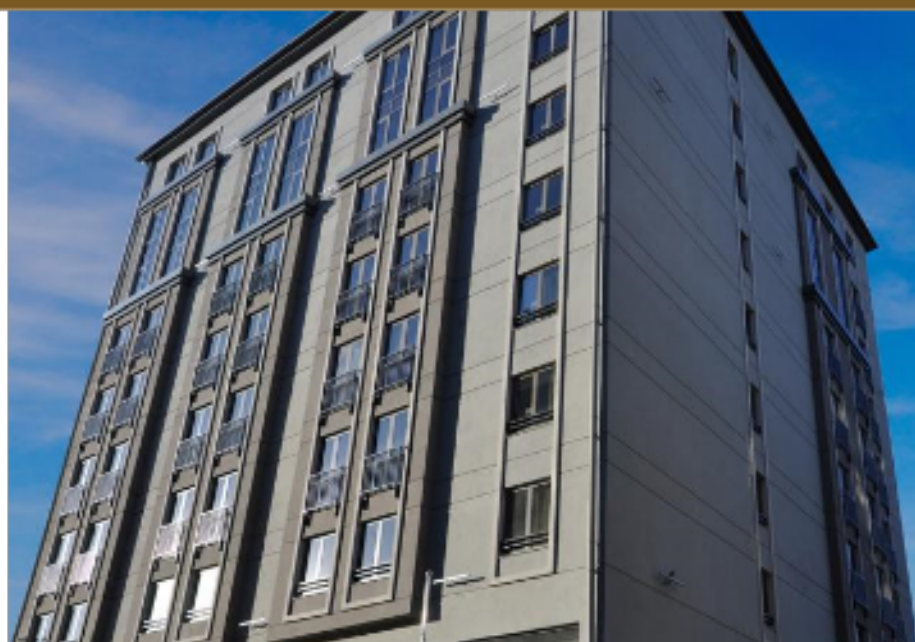

24.500 m²

182 Guest Rooms, Spa&Fitness Saloon, Ball Room, Restaurant

Design, shop drawing, application and equipment supply of all electrical installation

- Medium Voltage / Generators / UPS / Busbar / Indoor - Outdoor Lighting / Socket Outlet / Telecommunication System / Network / Fire Detection&Controlling System / Audiovisual System / General Audio&Emergency Announcement System / CCTV / SMATV / Building Management System

Ramada Hotel / Adana 2014

12.500 m²

113 Guest Rooms, Spa & Fitness Saloon, Ball Room, Restaurant

Shop drawing, application and equipment supply of all electrical installations

- Medium Voltage / Generators / UPS / Busbar / Indoor - Outdoor Lighting / Socket Outlet / Telecommunication Systems / Network / Fire Detection&Controlling System / Audiovisual System / General Audio&Emergency Announcement System / CCTV / SMATV / Building Management System

Ramada Encore Airport Hotel / Florya 2015

9.500 m²

90 Guest Rooms, Fitness Saloon and Restaurant

Shop drawing, application and equipment supply of all electrical installations

- Medium Voltage / Generators / UPS / Indoor - Outdoor Lighting / Busbar / Socket Outlet / Telecommunication System / Network / Fire Detection&Controlling Systems / Audiovisual System / General Audio&Emergency Announcement System / CCTV / SMATV / Building Management System

Ramada Oldcity Hotel / Findikzade 2016

6.500 m²

108 Guest Rooms, Meeting Rooms and Restaurant

Replacement of electrical installation

- Generator / UPS / Indoor Lighting / Socket Outlet / Telecommunication System / Network / Fire Detection&Controlling Systems / Audiovisual Systems / General Audio&Emergency Announcement Systems / Security&Intrusion System / CCTV / SMATV / Building Management System

Hampton Hotel by Hilton / Ordu 2011

7.200 m²

83 Guest Rooms, Restaurant, Fitness Saloon and Swimming Pool

Design, shop drawing, application and equipment supply of all electrical installations

- Medium Voltage / Generator / UPS / Indoor - Outdoor Lighting / Socket Outlet / Telecommunication System / Network / Fire Detection&Controlling Systems / Audiovisual Systems / General Audio&Emergency Announcement System / Security&Intrusion System / CCTV / SMATV / Power Controlling System / Building Management System

İlayda Avantgarde / Kuşadası 2013

7.700 m²

85 Guest Rooms, Restaurant, Fitness Saloon and Swimming Pool

Design, shop drawing, application and equipment supply of all electrical installations

- Medium Voltage / Generator / UPS / Indoor - Outdoor Lighting / Socket Outlet / Telecommunication System / Network / Fire Detection&Controlling System / Audiovisual System / General Audio&Emergency Announcement System / Security&Intrusion System / CCTV / SMATV / Power Controlling System / Building Management System

Rawda Resort Hotel / Altınoluk 2016

8.600 m²

85 Guest Rooms, Restaurant, Fitness Saloon & Swimming Pool

Shop drawing, application and equipment supply of weak current electrical installations

- Telecommunication System / Network / Fire Detection&Controlling System / Audiovisual System / General Audio&Emergency Announcement System / Security&Intrusion System / CCTV / SMATV

Endless Hotel / Taksim 2013

3.500 m²

32 Guest Rooms, Restaurant and Fitness Saloon

Shop drawing, application and equipment supply of all electrical installations

- Generator / UPS / Indoor - Outdoor Lighting / Socket Outlet / Telecommunication System / Network / Fire Detection&Controlling System / Audiovisual System / General Audio&Emergency Announcement System / Security&Intrusion System / CCTV Closed Circuit TV System / SMATV / Power Controlling System / Building Management System

Endless Boutique Hotel / Taksim 2014

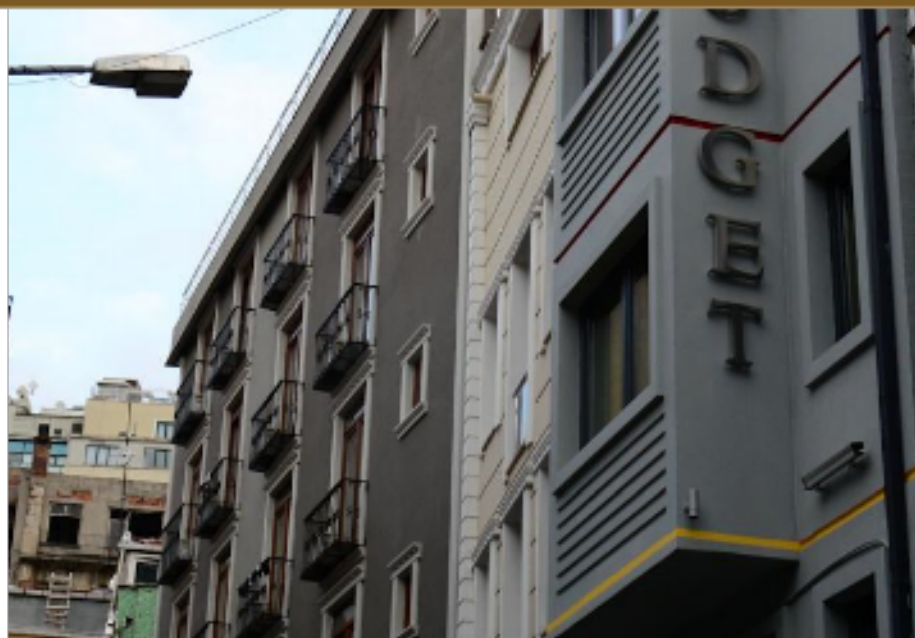

1.700 m²

17 Guest Rooms

Design, shop drawing, application and equipment supply of all electrical installations

- Generator / UPS / Indoor - Outdoor Lighting / Socket Outlet / Telecommunication System / Network / Fire Detection&Controlling System / Audiovisual System / General Audio&Emergency Announcement System / Security&Intrusion System / CCTV Closed Circuit TV System / SMATV / Power Controlling System / Building Management System

En Suites / Taksim 2013

1.000 m²

8 Guest Rooms

Design, shop drawing, application and equipment supply of all electrical installations

- Indoor - Outdoor Lighting / Socket Outlet / Telecommunication System / Network / Fire Detection&Controlling System / Audiovisual System / General Audio&Emergency Announcement System / Security&Intrusion System / CCTV Closed Circuit TV System / SMATV / Power Controlling System / Building Management System

Maroon Hotel Bosphorus / İstanbul 2013

1.200 m²

10 Guest Rooms, 2 Residences

Design, shop drawing, application and equipment supply of all electrical installations

- Indoor Lighting / Socket Outlet / Telecommunication System / Network / Fire Detection&Controlling System / Audiovisual System / General Audio&Emergency Announcement System / Security&Intrusion System / CCTV Closed Circuit TV System / SMATV / Power Controlling System / Building Management System

NG Afyon Wellness Spa / Afyon 2011

1.200 m²

Spa Saloon

Shop drawing, application and equipment supply of all electrical installations

- Indoor Lighting / Socket Outlet / Telecommunication System / Network / Fire Detection&Controlling System / Audiovisual System / General Audio&Emergency Announcement System / Security&Intrusion System / CCTV Closed Circuit TV System / SMATV / Power Controlling System / Building Management System

Jumeriah Spa&Wellness / Bakü 2011

1.500 m²

Spa Saloon

Shop drawing, application and equipment supply of all electrical installations

- Indoor Lighting / Socket Outlet / Telecommunication System / Network / Fire Detection&Controlling System / Audiovisual System / General Audio&Emergency Announcement System / Security&Intrusion System / CCTV Closed Circuit TV System / SMATV / Power Controlling System / Building Management System

Ramada Hotel / Gümüşhane 2015

11.500 m²

90 Guest Rooms, Spa & Fitness Saloon, Ball Room, Restaurant and Stores

Design of all electrical installations

- Medium Voltage / Generators / UPS / Busbar / Indoor - Outdoor Lighting / Socket Outlet / Telecommunication System / Network / Fire Detection&Controlling System / Audiovisual System / General Audio&Emergency Announcement System / CCTV / SMATV / Building Management System

Ramada Hotel / Elazığ 2014

12.300 m²

136 Guest Rooms, Spa&Fitness Saloon, Ball Room and Restaurant

Design of all electrical installation projects
